## Abstract:-

This project aims to implement the organizing, monitoring and reporting on any equipment used by sports facilities such as training centers, gymnasiums, stadiums, sports federations and universities. We, as sports equipment managers take care of procurement, maintenance, and the disposal of sports gear for our company, Raspberry. Sports equipment include:-

(1) Game equipment:- balls, flying discs, goal posts, nets, racquets, rods and tackle, sticks,    bats and clubs, wickets and bases
(2) Player equipment:- footwear, protective equipment and training equipment
(3) Miscellaneous:- vehicles

Features to be implemented:-

(1) Sports equipment database
(2) Registration and login
(3) Generate barcodes:- Using HTML, CSS and PHP
(4) Reserve equipment in advance
(5) Provide invoice

Number of Tables - 8

Frontend - PHP

Backend -  MySQL
